## Feature of the Month: Curriculum and Instruction Reviews

This month, we want to highlight our curriculum and instructional reviews. As you work towards building a culture of learning in your school or district, make sure that your curriculum and instructional practices will lead you to where you want to go.

SREB's reviews can help you figure out what you are doing well and what could be a problem of practice. We also work with your leadership team to create reports and action plans to put you on the right path.
